

PROPERTY SIGNAGE – WAYFINDING SYSTEMS

FORSTER, a European company headquartered in Austria, offers comprehensive solutions for property signage, wayfinding and orientation systems. Our more than 750 employees offer continuous support from the planning phase over manufacturing of the signage system to final installation. Over the last 50 years, Forster has developed a large selection of standardized products while still keeping full flexibility to cater for individual client’s needs and providing individual customized solutions.

Our inhouse-manufacturing capabilities are state-of-the art and enable us to work with almost any required material. Deep vertical and horizontal integration and our own tool-making division allow us to leverage on several production technologies within the group, as for instance:

- Surface treatment
- Welding robots
- All sorts of printing processes and foil processing
- Electronic engineering
- Plastics processing

FORSTER, operating within an ISO 9001 and ISO 14001 management system has gained unrivalled know-how over the past decades. The realization of several large-scale projects including major airports, convention and exhibition centers, healthcare and public facilities as well as stadiums and sports arenas provides a significant advantage in experience within this industry.
